

# FEATURED ALUM-A-LIFT CLASS 100 CLEANROOM TEST HEAD LOADER

## PROJECT 27406

**MODEL** A1500CRCSLRPD-72

**FEATURING** Three-segment telescoping arm, lazy susan, front-to-back shuttle, powered rotation module, steerable powered drive wheel

**HANDLING** 100 lb [45 kg] test heads

**DETAILS** Configured for use in a Class 100 Semiconductor Cleanroom, this Alum-a-Lift travels through narrow aisles to load electronic test head assemblies into a process tool. The component must be installed deep within the system in a space where clearance is limited. This lifter allows the task to be performed by a single operator, eliminating risk to personnel and equipment.
