

# FEATURED ALUM-A-LIFT MULTI-DEGREE OF FREEDOM ELECTRONICS LOADER

## PROJECT 27408

**MODEL** A1500CSLRPD-84

**FEATURING** Quick Exchange Fixtures, Tilt Module, Side-to-Side Swivel, Front-to-Back and Side-to-Side Shuttle, Steerable Powered Drive Wheel

**HANDLING** 230lb [104 kg] Electronic Modules

**DETAILS** This lift was configured to support the manufacturing and installation of a complex electro-mechanical assembly. Mobile and self-sufficient, this system is useful in both the manufacturing floor and final assembly hangar. This all-in-one solution includes several fine positioning modules and a universal adaptor interface with four different subassembly-specific fixtures. Collaboration between Alum-a-Lift's and the customer's engineering teams allowed turnkey delivery.
