

FEATURED ALUM-A-LIFT
 STAINLESS STEEL DRUM LIFTER FOR SANITARY WASH DOWN

PROJECT
28599

MODEL A800SSPDWD-72

FEATURING Powered Clamp, Powered Trunion, Powered Drive, Stainless Steel Construction, Hose-Down/Wash-Down (IP-65) Rated

HANDLING 400 lb [180 kg] Drums and Barrels

DETAILS Nearly any Alum-a-Lift design can be replicated in stainless steel construction for environments where corrosive cleansers are used. This unit includes a powered clamping end-effector and rotation module for rotate drums of powdered material, allowing operators to perform a scooping task at an ergonomic height. Used on a mezzanine with anti-slip plate flooring, this lift also includes soft rubber casters and a powered drive wheel.
